26 August 1976

MEMORANDUM FOR THE RECORD

SUBJECT: Meeting to Discuss the Activities of the Senate
Select Subcommittee Staff on the Collection,
Production, and Quality of Intelligence

1. A meeting was held Wednesday, 25 August, to review our working relationship with the Subcommittee staff over the past few weeks. Those attending were: Mr. Walsh, Mr. Zellmer, [redacted] Mr. Clark, [redacted] [redacted] and myself.

2. I told the group our relations with the staffers thus far had been going quite smoothly. I described a briefing on intelligence collection for staffer Rick Inderfurth convened by [redacted] and conducted by chairmen of the three DCI committees concerned with collection. I plan in the near future to hold a similar meeting for CIA collection components. I described the bookkeeping system we are using to keep tabs on material provided the committee and on their interviews.

3. Intelligence support to SALT was flagged as an area in which we are likely to receive staff queries. It was agreed that items of finished intelligence dealing with compliance would be released to the staff, but that other material would be examined on a case-by-case basis with the responsible components. We also discussed handling [redacted] and agreed that, after clearing with DDS&T, the Subcommittee staff would generally be given access to [redacted] material, although in particularly sensitive areas we might ask that such access be limited to the Chief Counsel and the Minority Counsel. It also was agreed that a high degree of source or policy sensitivity would have to be demonstrated to justify withholding material from the staff.
